General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

SPECIFICATIONS

FERRIC CHLORIDE (FeCl₃)

Standards

This item covers furnishing ferric chloride for use in treating wastewater at the Owosso Wastewater Treatment Plant. The material and delivery shall meet the applicable requirements of the AWWA Standard for ferric chloride (ANSI/AWWA B407-12) subject to any modification under this item. The City may require a typical analysis of the ferric chloride to be furnished and seeks to minimize impurities, particularly heavy metals, which may affect the wastewater discharge. The ferric chloride, however, need not be certified as safe for addition to drinking water.

Material specification

An average of 6,000 pounds per month of Fe (approximately one bulk tank truck delivery of ferric chloride solution) is required per month.

The ferric chloride solution shall contain from 28 to 47 percent ferric chloride by weight.

Upon award of bid the supplier shall furnish to the City "Material Safety Data" sheets for each chemical and shall comply with all other State and Federal requirements applicable to labeling and transportation and handling for each chemical.

Verification

Sampling and analyses when required shall be in accordance with Section 5 of ANSI/AWWA B407-12 unless other procedures are agreed to by the City and the supplier.

Deliveries

The bidder agrees to make additional deliveries as ordered by the City within one week from the placement of the order. If a delivery is not made in accordance with this requirement and if the City must order said chemical from another supplier to maintain reliable operation, then the contract supplier shall pay any unit chemical cost over the contract price.

Deliveries shall be made within one week of the call requesting delivery. Deliveries shall be made between 7am and 3pm unless an alternate delivery time is approved in advance by the wastewater treatment plant superintendent.

Trucks used for transportation shall be especially adapted for the particular commodity being delivered and complying with all applicable local, state and federal regulations. The truck shall be self-unloading either through gravity, pumped or pressurized feed.

The unloading will be allowed a minimum of three (3) hours.

The supplier shall assure that the delivery truck and offloading system are compatible with the chemical handling system at the Owosso Wastewater Treatment Plant through site visit and inspection or recent actual delivery experience.

Load Documentation

All bulk shipments shall be accompanied by:

- a weight certificate from a certified weigher.

- a bill of lading including percent ferric chloride, ferrous chloride and specific gravity of the solution
- a one pint sample from the load being delivered

The certified weight, percent ferric chloride and specific gravity shall be used to determine the actual pounds of iron delivered.

Termination of supply contract

The City reserves the right to suspend or terminate the supply contract and purchase material from an alternate supplier in the event that the material and delivery specifications are not met or in the event that the material or delivery interferes with the proper operation of the City's wastewater process and/or equipment. The City will provide written notice of such action and the cause therefore. Depending on the extent of such interference, the City may allow the supplier a period of time to correct any deficiencies following notice.

Basis for Bid Award

The bidder shall specify on the proposal the unit price per pound of iron (Fe) to be delivered as ferric chloride solution. The City may take into account the level of impurities in the material in awarding the bid so as to prevent interference with the wastewater treatment process, effluent requirements and sludge management alternative.
