MEMORANDUM

301 W. MAIN • OWOSSO, MICHIGAN 48867-2958 • WWW.CI.OWOSSO.MI.US

DATE: September 25, 2018

TO: Owosso City Council

FROM: Glenn Chinavare, Director of Public Services & Utilities

SUBJECT: Washington Street Resurfacing – Special Assessment Resolution No 2

When deemed necessary, the city conducts a street improvement program. Public streets are selected for inclusion in the program either by citizen initiated petition or by selection of the city. **Washington Street, from Gute Street to M-71 (Corunna Avenue),** is proposed by the city for street resurfacing. Property owners are then specially assessed to cover the cost of the proposed improvement. Past practice has been to assess property owners along the street 40% of the proposed benefit and the remaining 60% to the community at large. Each property owner can pay an assessment in one lump sum or in installments over the multi-year period (the period being determined by the amount of the average assessment).

The special assessment process has five steps, each having its own purpose and accompanying resolution.

Step One/Resolution No. 1 identifies the special assessment district(s), directs the city manager to estimate project costs and the amounts to be specially assessed, and determines the life of the proposed improvements. Resolution No. 1 for the proposed improvement was approved by City Council at its **August 6, 2018** meeting.

Step Two/Resolution No. 2 sets the date for the hearing of necessity on the projects. It directs notices to be sent to each affected property owner detailing the proposed project, notifying them of the public hearing date, and the estimated amount of their assessment. City Council is asked to act upon Resolution No. 2 on **October 1, 2018** for the proposed improvement.

Step Three/Resolution No. 3 documents the hearing of necessity. This hearing provides affected residents with the opportunity to comment on whether they feel the project is necessary and of the proper scale. After hearing citizen comment on the project the city council has three options: if they agree that the project should proceed as proposed, the district is established and staff is directed to go on with the next steps of the proposed project, including obtaining bids; if they feel the project should go forward, but with some adjustments they may direct staff to make those adjustments and proceed; if they feel the project is not warranted and should not proceed at all they would simply fail to act on Resolution No. 3, effectively stopping the process.

Step Four/Resolution No. 4 takes place after the bids are received. Estimated assessment amounts are adjusted if necessary to reflect the actual cost as dictated by the bids received. A second public hearing is set to allow property owners to comment on their particular assessment. Each property owner is sent a second notice containing the date and time of the public hearing and the amount of the proposed assessment for their property.

Step Five/Resolution No. 5 documents the second public hearing, finalizes the special assessment roll and sets the terms of payment. This public hearing is designed to allow affected citizens the opportunity to argue whether or not the amount of their assessment is fair and equitable in relation to the benefit they receive from the project. If, after hearing citizen comment, the council decides adjustments need to be made to the assessment roll they may do so. Alternately, if they feel all the assessments are fair and equitable they may pass the resolution as written.

Tonight the council will be considering Resolution No. 2 for the proposed district as a part of the Consent Agenda.

Staff recommends authorization of Resolution No. 2 for the following district:

Washington Street, from Gute Street to M-71 (Corunna Avenue)
