

CITY OF OWOSSO OUTDOOR SIREN WARNING SIGNALS

In case of a **SEVERE THUNDERSTORM WARNING** received from the National Weather Bureau through Central Dispatch:
A STEADY TONE will be used to alert the population.

In case of a **TORNADO WARNING** received from the National Weather Bureau through Central Dispatch or from a confirmed sighting:
A WAILING TONE will be used to alert the community.

On the first Thursday of the month the system will be tested at 6:00 P.M.
except for times when the city is under a severe weather watch or warning.
