

RESOLUTION NO. 132-2018

**WATER AND SEWER RATE SCHEDULE
FOR THE CITY FISCAL YEAR BEGINNING OCTOBER 1, 2018**

"Pursuant to Sections 34-248. Water Rates, and 34-249. Sewer Rates, of Article V, of Chapter 34, of the Owosso City Code, the City Council does hereby resolve that the following rate schedule for water and sewer service shall be in effect for the City fiscal year beginning October 1, 2018 and continuing thereafter until modified or replaced by further Council action. Bills issued with a nominal bill date of September 30, 2018 covering the quarter from July to September 2018 shall be billed under the previous rate schedule. All previous resolutions or parts thereof, insofar as the same may be in conflict herewith, are hereby repealed following the effective date of this schedule."

I. QUARTERLY WATER AND SEWER RATES

In-town quarterly water service charges consist of: a demand charge based on water meter size (see table below), a capital charge dedicated for water main replacement, and a metered usage charge. One meter unit is equal to 100 cubic feet of water or about 750 gallons. Rates for retail out-of-town water service are double the in-town rate, except that the capital charge does not apply to out-of-town customers where the respective Township separately finances water main replacement. Twenty five percent of the out-of-town revenue is collected for and transferred to the respective Township for use in replacing and improving their water distribution system.

Quarterly sewer charges consist of a demand charge based on the water meter size (see table below) and a sewer usage charge based on metered water consumption. The City has no retail out-of-town sewer service.

Bills are issued on a quarterly basis and, if not paid by the due date as shown on the billing, a late payment charge of ten percent (10%) of the current amount due may be added for failure to make prompt payment.

QUARTERLY WATER SERVICE CHARGE:

In-town: In-town Water Usage Charge of \$2.20 per meter unit plus In-town Water Demand Charge plus Capital Charge from Table below.

Out-of-town: Out-of-town Water Usage Charge of \$4.40 per meter unit plus Out-of-town Water Demand Charge from Table below.

QUARTERLY SEWER SERVICE CHARGE:

Sewer Usage Charge of \$2.60 per unit plus Sewer Demand Charge from Table below.

For residential customers without metered water service, the quarterly sewer charge shall be \$92.40 per residential unit.
